A total solution to simplify cleaning and maintenance

HOUNÖ PROTECT is our range of water treatment and cleaning products specially developed for HOUNÖ combi ovens. It is also a total solution to simplify cleaning and maintenance, as it is integrated with our unique oven software – making it easier for you to take proper care of your oven.

The HOUNÖ PROTECT solution is a perfect example of the HOUNÖ design philosophy; we use innovation and advanced technology to provide simplicity for chefs and kitchen personnel. The innovative software in HOUNÖ SmartTouch® ovens works together with HOUNÖ PROTECT products to ensure that the ovens are always in the best condition to give optimal performance.

The oven monitors consumption and tells you when to change Detergent Intense, Rinse Aid and Hydro Shield water filter, which gives you the best protection and lowest running cost in the easiest way possible. Use HOUNÖ PROTECT products to ensure superb cleaning and the best water treatment for your HOUNÖ oven. You can buy the whole range of HOUNÖ PROTECT products directly at www.houno.com.

HOUNÖ PROTECT Detergent Intense and Rinse Aid: The best cleaning products for your HOUNÖ oven

The HOUNÖ PROTECT cleaning products are made with dedicated components, which makes them the ideal choice for cleaning HOUNÖ combi ovens. They are specifically developed for CombiWash®, with you and the environment in mind.

When using HOUNÖ PROTECT, you can be sure that your oven is excellently cleaned with the correct products. Get a perfectly clean oven with HOUNÖ PROTECT Detergent Intense and Rinse Aid. For daily use, for heavy use and for a shiny and streak-free oven. There is always a cleaning product for your needs.

DETERGENT INTENSE

Detergent for cleaning heavily soiled ovens with the automatic cleaning system. The combination of alkaline, surface-active, and calcium binding components ensures effective removal of dirt and stuck components. Furthermore, it prevents calcium deposits in hard water. Use Rinse Aid in addition to Detergent Intense.

Quantity	Article No.	Price, £
2 x 5L	30500571	46

RINSE AID

Concentrated, acidic rinse aid, specially developed for ovens with an automatic cleaning system. The product contains low-foaming components, which ensures fast and streak-free drying. Furthermore, the product contains acidic components, which keeps the oven free from calcification.

Quantity	Article No.	Price, £
2 x 5L	20500200	34

HOUNÖ PROTECT CLEANING PACKAGE

HOUNÖ PROTECT start kit contains 6 x HOUNÖ PROTECT detergent Intense and 2 x HOUNÖ PROTECT Rinse Aid. Both products are developed for your HOUNÖ oven.

Quantity	Article No.	Price, £
2 x RINSE AID	30520494	172
6 x DETERGENT INTENSE		

SUMA EXTEND D3

Liquid degreaser, which is used undiluted to remove grease, burnt coatings and oil from kitchen equipment such as ovens. Fast acting and very effective on greasy surfaces. High efficiency, since the product is sprayed out and can stick to vertical surfaces. Does not contain lye and is safe for aluminum. Sprayer included.

Quantity	Article No.	Price, £
2 x 2L	045749	21

SUMA CALC D5

Concentrated descaling agent for removal of limescale on kitchen equipment and tools. The effective removal of limescale helps protect the equipment and improves hygienic safety. Effective economy of use due to the concentrated formula. Removes oxidized film and gives matte metal surfaces a new shine. Sprayer included.

Quantity	Article No.	Price, £
2 x 2L	045750	23

STEEL CARE OIL

Steel oil is used to polish and protect the outside of the oven.

Quantity	Article No.	Price, £
2 x 0,5L	045651	13

HOSE KIT FOR DETERGENTS

Hose kit suitable for HOUNÖ Protect Rinse Aid and Detergent Intense containers. If you have not purchased HOUNÖ Protect detergent or rinse aid before, we strongly recommend that you also buy a hose kit.

Quantity	Article No.	Price, £
1	30520027	22

SPRAY PUMP

Extra spray pump for Suma Extend D3 degreaser.

Quantity	Article No.	Price, £
1	30500582	11

HOUNÖ PROTECT Hydro Shield: The best water treatment for your HOUNÖ oven

The Hydro Shield water treatment system is the optimal choice of protection for your HOUNÖ oven. Hydro Shield removes exactly those corrosion-causing deposits from the water, which are harmful to combi ovens.

When you use Hydro Shield water filters, you avoid unnecessary wear and help extend the lifetime of your oven.

The HOUNÖ PROTECT Hydro Shield water filters are available in three sizes. The capacity of each filter depends on your water hardness.

HYDRO SHIELD

The Hydro Shield water filter removes total hardness as well as harmful chemicals to ensure correct water supply to the HOUNÖ combi oven.

The Hydro Shield system is designed to work together with the HOUNÖ combi oven. Filter capacity and need for replacement is managed in the oven's SmartTouch software. Alternatively, the capacity is monitored with the Aquameter.

Filter size	Article No.	Price, £
Hydro Shield S 1500	30500544	64
Hydro Shield L 3600	30500545	118
Hydro Shield XL 6000	30500546	212

HOUNÖ PROTECT Software: Advanced technology for better workflows

You can adjust the settings on your SmartTouch® oven, so it matches the environment of your oven; you can for example adjust the water hardness on the oven. This information in conjunction with the Hydro Shield water filter enables the oven to tell you exactly when the filter has used 80% of its capacity.

The oven gives you a notification, when this happens. This allows you to order a new water filter in time, so you have new filter ready when needed. The oven also tells you when the water filter has used all of its capacity. This means you can use the full capacity of the water filter and replace once it is necessary.

For installation of the Hydro Shield water filter on HOUNÖ Standard ovens, you should use the Water Flow Meter – Aquameter. This system will monitor the capacity of the Hydro Shield filter cartridge, so you will know when to change the filter. This way, you get the most out of the Hydro Shield water treatment solution for your HOUNÖ Standard oven.

The same goes for the cleaning products, where the oven will notify you when supply is running low. It will also tell you if there is not enough cleaning products to run a selected cycle. This way the HOUNÖ PROTECT Solution can eliminate stress, as it gives you time to order new cleaning products in good time.

Do you know why you need a water filter for your HOUNÖ combi oven?

Check out the FAQ section at www.houno.com to get answers to your questions regarding oven cleaning and water filters.

For example, you can learn why you need a water filter, what the water filter removes, how you measure water hardness, and much more.
